

# TRI Analysis Tools: MyRTK

Presented at the TRI National Training Conference  
in Washington D.C., November 3, 2010  
by Pamela Russell, OEI/OIAA/EAD

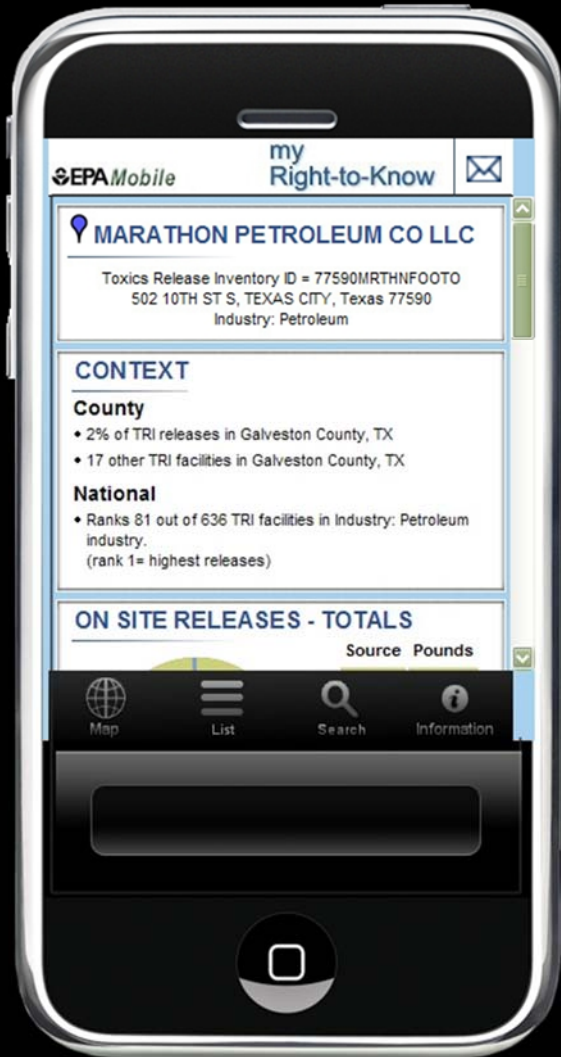

# Overview of MyRTK

- **Search Screen** - Type in address or area
- Click on the **Map Tab**
  - Blue pins are TRI facilities, gray pins are other facilities
  - Scroll over the pin to get a bubble with the name and address of the facility
- Click on the **List tab** for a list of the facilities shown on the map
- Click on a facility name – either from the map bubble or on the list ->**Facility Report**
- Scroll down the **Facility Report** for:
  - Context
  - On-Site Releases – Total and Media distribution
  - On-Site Releases by Chemical releases with amounts and type of health effect (carcinogenic or other types of health effects) Click on the chemical for more detailed health effect information (e.g., neurotoxic, developmental)
  - Enforcement Information – Click on “**More**” to see the ECHO report
- Click on “**What can I do**” to get information on State and Federal contacts and to link to the Enforcement Office’s page on how to report a potential violation. Click “back” button to return to facility report.
- Click “**Feedback**” to get to send in your comments.
